

Truth, then, is sprung out of the earth: Christ who said, 'I am the truth', is born of a virgin. And justice looked down from heaven.

Truth is sprung out of the earth, for the Word was made flesh. And justice looked down from heaven, for every best gift, and every perfect gift, is from above.

Where is peace on earth, if not from the fact that Truth is sprung out of the earth, that is, Christ is born of flesh? And he is our peace, who has made both one, that we might be people of good will, bound together by the sweet bonds of unity.

St Augustine
