

ST AUGUSTINE'S PRIMARY SCHOOL MARYBOROUGH

2015 was a year of change for me. New class, new friends and a complete new aspect of life. Most of my highlights included my friends and family who supported me with events like the Energy Breakthrough. 2015 has given me many opportunities, like having the privilege to participate in the Lightning premiership, having the opportunity to go on camp and being able to raise money for those less fortunate at the school fair. In 2015 I learnt that you should take more chances in life and that we need to love to be loved.

I think the message of Christmas is to give and receive, to give to those who are less fortunate and to make people happy.

Matilda Davies – Grade 6
