

Prayer for Creative Thinkers

**Eternal God,
Creator of all men and women, and of all things,
invisible and visible alike,
God of all history,
you who are the Lord and the goal,
the power and the light of all the activities
of the human spirit,
today we bring before you our prayer of intercession
for all those who have a
creative contribution to make in this field.**

**You love the sort of people who realize their own being
in what they achieve and produce,
who discover and express that nature
which is an image and likeness of your own glory.
That which your will intends them to be,
that they can only become with the help of your grace,
O Father of poets,
Eternal source of all light, Spirit of all true inspiration!**

**It is for this that we entreat you and invoke your
Holy Spirit upon them.
Raise up among us women and men endowed
with creative powers,
thinkers, poets and artists.
We have need of them!**

**May the Spirit of your Son come upon them in order
that your name may be praised
now in this time and throughout all eternity.**

Amen.
