*to raise monies to support Timorese tertiary students studying in Dili, Timor Leste.  
The event is part of Ballarat Harmony Festival, 2018.*

Ballarat Friends of Ainaro Health Group are a group of health professionals committed to supporting the provision of health care in Timor Leste. through awarding scholarships to disadvantaged Timorese students living in the Ainaro district who are interested in studying a health related discipline in Dili.

The scholarship covers the costs associated with study and a small living allowance to support living in Dili.

For these students, an opportunity to acquire a professional qualification, will potentially transform the lives of the students, and also their families.

Currently we are supporting three students, two are studying nursing and one is studying pharmacy.

Ballarat Friends of Ainaro Health Group fits under the umbrella of the Ballarat City Friendship relationship with Ainaro district, Timor Leste.
