To promote child safety within the parish, it is helpful to plan ahead and develop a list of contractors (e.g. electricians, plumbers, cleaners) who can be engaged to undertake work within the parish. Making contact with preferred contractors – to provide them with an overview of child

safety requirements and to gather relevant child safety information e.g. Working with Children Checks – can be help in streamlining the process when a contractor is required.

The sample **TEMPLATE: Contractor Register** is a helpful tool for recording relevant information in relation to compliance with child safety requirements.

Please do not hesitate to contact the Professional Standards Coordinator for support and advice in relation to the application of the Safeguarding Children and Young People Framework to contractors working in parishes, agencies and entities:
