Our contribution of \$1 a week (\$52 a year) has enabled these efforts to continue. 2024 Season of Creation Prayer *Triune God, Creator of all, we praise you for your goodness, visible in all the diversity that you have created, making us a cosmic family living in a common home. Through the Earth you created, we experience love and nourishment, home and protection. We confess that we do not relate to the Earth as a Mothering gift from you, our Creator. Our selfishness, greed, neglect, and abuse have caused the climate crisis, loss of biodiversity, human suffering as well as the suffering of all our fellow creatures. We confess that we have failed to listen to the groans of the Earth, the groans of all creatures, and the groans of the Spirit of hope and justice that lives within us. May your Creator Spirit help us in our weakness, so that we may know the redeeming power of Christ and the hope found in him. May the groans of the Spirit birth in us a willingness to serve you faithfully, so that we may hear and heal Creation, to hope and act together with her, so that the first fruits of hope may blossom. Loving and Creator God, we pray that you will make us sensitive to these groans and enable us to have the same compassion as that of Jesus, the redeeming Lord. Grant us a fresh vision of our relationship with Earth, and with one another, as creatures that are made in your image. In the name of the one who came to proclaim the good news to all Creation, Jesus Christ. Amen.*

Pope's September Prayer Intention - *For the cry of the earth:* *Let us pray that each of us listen with our hearts to the cry of the Earth and of the victims of environmental disasters and the climate crisis, making a personal commitment to care for the world we inhabit. Lord, hear us.*

Water security - access to safe drinkable water is a basic and universal human right, since it is essential to human survival and, as such, is a condition for the exercise of other human rights. The quality of available safe water is constantly diminishing. In some places there is a growing tendency, despite its scarcity, to privatise this resource, turning it into a commodity subject to the laws of the market (*Laudato Si* 30). Consider your water usage even though here in Australia we are lucky to have access to this precious resource!
